**Subject:** Re: Emery, Addition to Bathhouse Trailer Pad, Task ID #3413  
**Place:** OGMCOAL

The IR is complete. The amendment can move on to technical review. As for a review team, I think that Pete Hess is probably the only person that needs to look at it. The Emery folks just want to add another bath house on the disturbed area. In my view, the only thing that needs to be looked at is the bonding (nothing else changes- i.e. soils, geol., hydro., biol. etc.). Currently, there are 5 bath houses right behind the main office. They're proposing to add a 6th.

Pete- Compared to some of the amendments as of late, this will be an easy one. The Emery folks will have to pour a concrete pad for the trailer. I believe the dimensions for the pad were something like 5' x 70' (John G. can verify the exact size). Mr. Gefferth has revised the surface facility map to depict the multiple trailers. The previous map only depicted one. John Gefferth claims that there is \$5,000.00 earmarked for the removal of the bathhouse trailers. His argument is that the trailers would be rolled off/given away and thus not need to be destroyed and hauled off as debris. From John G.'s point of view, \$5,000.00 for the removal of the 6 concrete pads is more than adequate. Let me know if you have any questions or I can help in any way.

Steve

Hello Steve,

We received the above application on 10/12/09. The IR is due on 10/27/09.

Please email me, cc to Jim and Daron when the IR is completed. At that time, I will send an email notification to the operator.

Thanks!
